ALUMINUM PROFILE

Model | LB54001

Model | LB54002 - Aluminum Finish
LB54010 - Black Finish
LB54011 - White Finish

AVAILABLE ACCESSORIES

End Cap

Mounting Clip

Opal matte cover

End Cap

ORDERING GUIDE

Model	Dimensions	Length	Application	Finish
LB54001	0.91" x 0.31" (23.2mm x 8mm)	8 FT.	Recessed	Aluminum
LB54002	0.67" x 0.31" (17.1mm x 8mm)		Surface Mount/Recessed	Aluminum
LB54010	0.67" x 0.31" (17.1mm x 8mm)		Surface Mount/Recessed	Black
LB54011	0.67" x 0.31" (17.1mm x 8mm)		Surface Mount/Recessed	White

FEATURES

Anodized silver aluminum extrusion profile for both recessed and surface mount LED lighting projects.

PERFECT SHIELD FOR LED STRIPS

Aircraft grade aluminum allows for optimal heat dissipation, providing great protection for delicate LED strip lights. Not only do the aluminum channel systems dissipate the heat produced by LEDs, but the end caps protect the extrusion from dust and other undesirable elements. The mounting clips guarantees easy and secure application of the extrusion to any desired surface.

SPOT-FREE NEON EFFECT

Different covers (opal matte, semi-clear, diffused and clear) provide a well diffused light that is comparable to neon effect, rendering a softer, more uniform light.
