

# INSTALLATION INSTRUCTIONS FOR 4" TRIMLESS TRIMS

If you have any doubts about how To install a light fixture or it fails to Operate properly, contact a local Licensed electrician

## INSTALL TRIM ASSEMBLES

Install trim by one of the following methods:

**PRESSURE SPRINGS:** Bend slotted tabs up and insert trim into housing. Push upward fully and pressure springs will hold trim in place (see Fig 1 & Fig 2)

**TO INSTALL LAMPS:** Select proper lamp (see lamp maximum wattage label in housing). Do not exceed maximum wattage lamp shown for each trim (see Fig 3)

Twist & take out lamp holder & install lamp into socket & fix into the lamp holder. Then put back lamp holder into the trim.(see Fig 4 & Fig 5)
